REASONS FOR ALLOWANCE

1. Claims 1-9 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The applicant's arguments filed on 10/17/2007 are persuasive. The amended claims 1-9 are allowable. **The feature of independent claims 1, 4, and 6** directed towards allowable subject matter is the feature wherein "a state setting register, that stores setting data for one of multiple states, the multiple states including a display ON state where drive power is generated and display operation is conducted using drive signals based on display data, a display OFF state where the drive power is generated but display operation using the drive signals is not conducted, and a sleep state, where the drive power is not generated and display operation using the drive signals is not conducted. **Zehner et al. generally teach of a like display device with driving circuitry**, however Zehner et al. fails to teach of the combination of features as outlined above, having the appropriate state setting register. **Therefore** the above said features in combination with the other limitations of the above independent claims 1, 4, and 6, and therefore claims 1-9, are found to be allowable over the prior art of record.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
